

January 29, 1976

Board, that you have a monetary interest in how the industry is regulated. That is expertise. It provides for eight members of a seven man Board just incidentally, in case you don't like any of my other amendments. Someone who so favors this construction of the Board might consider that one but I don't care but you have to have a direct interest in the outcome. Normally, we consider that a conflict of interest. If we don't consider it a conflict of interest in this case, let's say it and that is all I am asking for and I wouldn't think there would be any big dispute about it but there is for some reason.

SENATOR SIMPSON: Motion is to adopt the Cavanaugh amendment. All in favor vote aye. Those opposed vote nay. Ask for a record vote. Have you all voted? The Clerk shall record. Yes.

CLERK: Mr. President, record vote read. See page 450, Journal. 11 ayes, 19 nays, 19 not voting.

SENATOR SIMPSON: Motion lost. Are there other amendments on the desk?

CLERK: Yes, Mr. President.

SENATOR SIMPSON: The Clerk will read.

CLERK: Mr. President, I move to amend LB 248: Read amendment. See pages 450 and 451, Journal. Signed Senator Keyes.

SENATOR SIMPSON: Senator Keyes.

SENATOR KEYES: Mr. Speaker, I move for the adoption of the amendment. I have talked only with Mr. Reeder and he has told me, he says, "Orval," he says, "I do not object to anything that they are going to do but," he says, "I do object to having to have a local inspector come from wherever the house is being sold, come in and inspect it to make sure that it meets their local requirements." Now if this Board is able to hire a representative to represent them and inspect for the state's requirements, then this local representative that is hired by this group shall be able to inspect for the needs of Scottsbluff, any other town that they happen to be selling the house in. I don't think they are going to object to, and they will build to the requirements of Omaha. They will build to the requirements of any destination but they don't want to have to pay this difference in cost and that is all this amendment does. If we trust them to inspect the house for the requirements for this Board, then we certainly can expect them, trust them to inspect the requirements of the other towns throughout the State of Nebraska. So I would move for the adoption of this. It has nothing to do. It makes this a fine bill. It eliminates the modular housing industry from opposing the bill. It should, unless they have not been truthful with me. It should meet the requirements of the City of Omaha or any
